Intended to reduce risk and give clients control over their operations. Our appropriate crisis management procedures allow control regain and crisis impact to be minimized.

## GPS TRACKING SYSTEMS

When locating a car, person, or other asset, our GPS tracking devices pinpoint the exact location of the object and periodically log its position.

## INTELLIGENCE REPORTING

In order to support and provide clients with safety instructions, ILS maintains an active intelligence division gathering data from various government and non-government sources.

- ▶ Daily security report that analyzing security occurrences.
- ▶ Monthly statistics reports showing security trends.
- ▶ Flash reports out as soon as major security situations happen.
- ▶ Regular reports on protests, gatherings, and traffic closures.

## OUR PROGRAMS

ILS' long history of use in military and law enforcement training gives our customers' distinctive training environments depth and range. Our personnel support the Iraqi government and its allies in the military and law enforcement domains. They are former members of Iraqi Special Forces and Counter Terrorism Units, two of the country's most elite military units.

For foreign humanitarian assistance workers and freelance journalists who operate in difficult areas, security training—also known as hostile environment awareness training (HEAT) or hostile environment and first aid training (HEFAT)—is essential.

Human rights advocates and other professionals who deal with dangerous circumstances can also benefit from it.

Unlike many other courses of its kind, our basic course on Personal Protection in Hostile Conditions was designed with NGOs and embassy personnel in mind from the very beginning.

It includes teaching in survival and outdoor living skills, which are essential for anyone working in remote or difficult places like refugee camps, and a full day of first aid training. Life-saving security techniques are also covered.

## TRAINING PROGRAMS FOR HOSTILE ENVIRONMENT

A unique training curriculum covering special tactics, combat medicine, defensive driving skills for armored vehicles, weapon handling, and shooting was devised by Russian professionals for use by private security operatives and police forces.

## BUSINESS AND MEETING FACILITIES

We provide our services in facilities designed with the comfort and safety of individuals who live and work there in mind.

We have fully-serviced offices providing everything international companies require to get on with their business in Iraq, including private or open plan furnished offices with IT equipment, meeting and conference rooms, full high-speed internet access, administrative staff and translators.

## VENUE FOR EVENTS

Whether you require an evening function to entertain a group of clients with excellent food and musical entertainment, or you wish to hold a 2-day seminar for a group of delegates, we have the space, the catering, and the technical support to help manage your event or meeting.

## CATERING

Our restaurant serves international cuisine for residents, providing three meals a day that can be tailored to your preferences, with a number of indoor and outdoor spaces for client catering and entertainment, a private garden and BBQ area, casual dining by the pool or formal seating in our dining room.
